

THE PERFECT PAIR FOR SALTWATER SPAS

Make your saltwater spa easier to maintain.

SALT START

- Fast dissolving salt blended specifically for spas
- Naturally reduces the common corrosion found when using traditional salt
- Exclusive formula keeps water in balanced longer
- Keeps surfaces and equipment free from scale
- Naturally softens water
- Long lasting water clarifying ability
- Available Size: 5 lb.

APPLICATION

For every 500 gallons, 10lb of Salt Start will raise salt levels 2,000 ppm

Different generators require their cells to operate with a certain level (in ppm) of salt in the water. Consult the operators manual for starting salt levels.

EZ-ENZYME + PHOSAWAY

- Unique enzyme formula works better in hot water
- Safely and naturally biodegrades wastes in water
- Eliminates and prevents waterline and scum rings
- Helps salt cells work more efficiently by controlling phosphate levels
- Increases the efficiency of other water treatments, so you can add them less frequently.
- Available Size: 16 oz.

APPLICATION

Initially: Add 1 ounce for every 100 gallons of water
Weekly: Add 1-2 ounces for every 500 gallons of water
Avoid superchlorinating water for 24 hours to insure maximum effectiveness
